EXTRACURRICULAR ACTIVITIES

Public Speaking

Communication

Volunteer Work

Summary

As a software engineer applicant, I am highly motivated and eager to gain hands-on experience in the industry. With a strong academic foundation in computer science and a passion for technology. Beyond technical skills, I possess excellent problem-solving abilities and a detail-oriented mindset. Additionally, I am a strong communicator, able to collaborate effectively with team members, and keen to learn from experienced professionals.

Skill Highlights

- HTML/CSS, PHP, JavaScript
- C#, ASP.NET
- React.JS
- Jira, Selenium
- SQL
- Data Structure and Algorithm
- Problem Solving
- Git and GitHub

Experience

Freelancer QA

- I have worked on a project named EZ-Stickerbook.
- My responsibilities included developing and executing QA test cases and scripts, testing software to assess optimal in-project deployment, and completing in-depth usability testing on MAC, Windows, Android, and iOS mobile devices.
- I wrote and optimized test cases to maximize the success of manual software testing with consistent and thorough approaches.
- I understand functional, technical and UI requirements of each project and I use different types of testing to find bugs.

Education

BSc in Computer Science and Engineering
American International University Bangladesh
Current Semester : **11th** Current CGPA : **3.64**
