

# Atiqur Rahman

## Software Engineer

I am a dedicated and enthusiastic learner, driven by a strong belief in hard work and efficiency. I have a passion for acquiring knowledge and staying updated with the latest technologies. With a keen interest in exploring new things, I have hands-on experience with various technologies. I am always ready to take on challenges and prove myself through my work and sense of responsibility. Committed to continuous growth and making a positive impact through my contributions.

## EDUCATION

### BSc in Computer Science and Engineering American International University Bangladesh

01/2020 - Present

CGPA : 3.45

## PROJECTS

### Blog Site (12/2023)

- GitHub link: <https://github.com/ARTopu/Blog-app>
- A complete **Responsive Front-end** blogging website using **MERN Stack**

### E-Learning (08/2023)

- GitHub link: <https://github.com/ARTopu/E-Learning>
- Software Language: **ASP .NET** (3-Tier Architecture with SOLID Principle) **Microsoft SQL** . Making a **E-learning API Website**

### Pharmacy Management System (10/2022)

- GitHub link: [https://github.com/ARTopu/Pharmacy\\_Management\\_System](https://github.com/ARTopu/Pharmacy_Management_System)
- Software Language: **HTML, CSS, PHP, JavaScript**
- Server site and Browser Validation and **CRUD** functionalities used

### MovieLand (09/2023)

- GitHub link: <https://github.com/ARTopu/MovieLand>
- A functional **ReactJS** based personal project using **API**

## WORK EXPERIENCE

### SQA MR Tech

02/2023 - Present

My responsibilities:

- Tested and improved quality of a project named Teachally
- responsibilities included developing and executing QA test cases and scripts, testing software to assess optimal in-project deployment, and completing in-depth usability testing on MAC, Windows, Android, and iOS mobile devices
- wrote and optimized test cases to maximize the success of manual software testing with consistent approaches
- have a great understanding of functional, technical and UI requirements of each project and used different types of testing to find bugs.

## SKILLS

ReactJS

ASP.NET

PHP

JavaScript

NodeJS

MySQL

C#

AngularJS

Git & GitHub

Jira

Postman API

MongoDB

TypeScript

Data Structure and Algorithm

## CERTIFICATES

### Technical Support Fundamentals (Google)

<https://www.coursera.org/account/accomplishments/certificate/UBY9BSUYPXHM>

### The Bits and Bytes of Computer Networking (Google)
